### Arrowhead Regional Medical Center Rates Setting

#### METHODOLOGY

The pricing methodology used in Arrowhead Regional Medical Center (ARMC) is set according to each service units or revenue centers, with consideration to the following factors: acquisition cost, uniform mark-ups on a relationship to the cost of the item or service, comparable market values and involvement of each department manager. The fees are the amounts that have been determined to be the fair and equitable cost of the service.

The estimated percent change in gross revenue due to price changes has been increased by 7% across the board on July 1<sup>st</sup>, with approval from the San Bernardino County Board of Supervisors.

Sincerely,

Frank Arambula
